

7/5/2016

Just a reminder to everyone that an in-person DaneCom update will take place at the Madison Police Training Center on July 12th. An agenda is attached to this email.

You will have the opportunity to ask questions as various people from the County, Harris Corporation, and GenComm discuss the upcoming “go live” of DaneCom.

This is an important event which will not only answer your questions, but also to help ensure your entity is on the right track for DaneCom readiness once the system is fully online this coming fall. Please attend if you are able!

DaneCom Update
July 12, 2016
1630-1830

Venue: Madison Police Training Center; 5702 Femrite Drive, Madison

Program:

1630 County Executive kick-off

1645 PSC Director Dejung on system description and expansion attributes

1700 Harris Corporation and General Communications, Inc. on what's left to accomplish

Q&A

10 minute break

1730 PSC/Harris/GenComm on programming, field user testing of radios

1800 Director Wunsch and Chief Gregory on field user training and radio protocol updates

Q&A

Objective: To ensure all is ready, including field user radio programming and training, in time for the November 2016 system implementation

Intended audience: Dispatchers, field users (both public safety and public works), elected officials representing DaneCom members
