

(11/2/2016 12:47pm via email)

The Harris/GenComm team has worked tirelessly through this past weekend to ensure all is ready for the DaneCom cutover...they have assured me this morning they are now ready. However, because of the high probability of campaign visits and to give adequate notice to you for final preparations, we have chosen to set the cutover for next Wednesday, November 9th.

The plan will mirror what we had planned for November 1; law enforcement cutover will occur at 0500 and Fire/EMS at 0700.

We will provide more information, as needed, as these next 7 days go by. Of course, please don't hesitate to get your questions to us or to your Association contacts.

John Dejung; Dane County 9-1-1 Director
